**THE HAWKEYE** insures property against fire, lightning and tornadoes, and has done more business, paid more losses and has a larger surplus over all liabilities than any other Iowa company. It is purely a home institution, confining its business to Iowa alone. As to its standing among Iowa people, we refer to the above showing, which speaks for itself.

**Patronize Home Institutions and Industries** is the watchword. Don't send your money out of the State when you can get a policy in one of the best Companies, Home or Foreign, by patronizing the **HAWKEYE INSURANCE CO.** of Des Moines, Iowa.

FOSTER OPERA BLOCK, DES MOINES, IOWA.

## TO INSURANCE AGENTS.

GENTLEMEN: The Des Moines Life Association, operated on the "Rawson System" of life insurance, is not a HIGH RATE company or a LOW RATE company, but an organization whose premiums are based on INSURANCE EXPERIENCE, and are SUFFICIENT, but not EXHORBITANT. According to the sworn statements of the old-line companies to the New York Insurance Department for the past thirty years, we are collecting just a little more money to pay DEATH LOSSES with than they do, but not nearly as much for EXPENSE and reserve. Thus you will see that, by basing our mortality collection on this experience, we are ABSOLUTELY SAFE at less than ONE-HALF the rates charged by old-line companies. We need not tell you that an agent's VALUE is measured by his ABILITY TO COLLECT PREMIUMS, or that it is much easier to collect a premium of \$80 for a \$5,000 policy in our company than it is for a \$2,000 policy in an old-line company. This is why agents say that the DES MOINES LIFE ASSOCIATION is a BONANZA for them. The insured, for the same premium, gets more than TWICE the INSURANCE furnished by the old-line companies, and insurance that is ABSOLUTELY SAFE, and yet the commission is about the same. We write as many Iowa people in a month as any old-line Iowa company writes in a year. We are doing business in sixteen different states, and before the close of 1895 will be in at least twenty states.

We have some good territory for special or general agents. Address,

C. R. RAWSON, President,

SEE NEXT PAGE.

DES MOINES, IOWA.

# Read THE FOLLOWING CAREFULLY.

## ABSOLUTELY SAFE—READ CAREFULLY.

WE wish to explain why the Des Moines Life Association is absolutely safe for all time to come the money paid in by the people for insurance is divided into three different funds, viz:

### Mortuary, Reserve, Expense.

COST OF OLD LINE INSURANCE AT AGE 40 FOR \$1,000.

Mortuary	\$ 9 82
Reserve	13 86
Expense	7 89
	\$31 50

COST OF DES MOINES LIFE AT AGE 40 FOR \$1,000.

Mortuary	\$10 40
Reserve	2 40
Expense	3 00
	\$16 00

You can see from the above that we collect more to pay our death losses than do the old-line or legal reserve companies, but not nearly so much for reserve and expenses. The president of many old-line companies draws a salary of \$50,000, per annum (the same as the President of the United States), a few of them get \$65,000, while our president simply gets pay for the time he puts in, and must be paid from the \$3.00 to \$1,000, as well as all the rest of the expenses of the company.

## BUSINESS MEN ASK FOR OUR INSURANCE.

Several of our Des Moines men, during the past year, have either called at our office or asked us to call on them and write their applications for a policy, which has been very gratifying indeed. None has been more so than a man whose name is familiar not only to insurance men, but to the masses of people of the great state of Iowa. We refer to Adam Howell, president of the Hawkeye Fire Insurance Company of this city. Not long since, Mr. Howell said, as we were dining together, "Why don't you call and write me a policy in your company?" at the same time saying that he had heard a great many good things said about the D. M. L. A., and felt that we were worthy of the support of our home people, as we were building up a Western institution that was a credit to our city and State. We appreciate the confidence thus placed in the D. M. L. A. by a man that stands on the top round of insurance and at the head of a company that needs no introduction to the people of Iowa. We feel that we have added to our membership a valuable name, one that will carry weight with it. At the same time we have increased Mr. Howell's estate just \$2,000.

# Reflect AND THEN Act.

## OUR PYRAMID.

Apr. 1, 1895--	236,206.67
July 1, 1895--	240,549.60

We wish to impress it on your mind that the above assets all belong to our policy-holders. No stock-holders to absorb the savings. On the other hand at the end of each tenth policy year, this fund is equally divided among the policy-holders who have kept their policies in force for ten full years, giving them their choice either in cash or paid up insurance.

## TEN REASONS.

**WHY** The Leading Life Insurance Agents prefer to represent this company.

**WHY** The MASSES of the PEOPLE INSURE WITH US.

**First**—Because we write pure Life Insurance without any side issues.

**Second**—Because we pay our death losses promptly and in full.

**Third**—Because we do the leading business in Iowa, old line or new.

**Fourth**—Because we pay our agents a cash commission on the fifteenth of each month.

**Fifth**—Because we have no membership fee making our plan much more desirable.

**Sixth**—Because our payments are fixed, doing away with post-mortem or pass-the-hat assessments.

**Seventh**—Because we always have money to pay death losses promptly, and to loan out on Iowa farms.

**Eighth**—Because in case a policy-holder gets totally disabled he can draw one-half of the benefit while living.

**Ninth**—Because we write the Joint Policy on man and wife, or any two relatives, with the full amount payable to one that lives the longest. The best, as Noah said when he invited him into the ark, "come in pairs."

**Tenth**—And because our dividend, at the end of ten years, will equally divide the accumulations between every policy holder that has kept his policy paid up for ten years. If they have paid one dollar too much it will be returned to them with interest, making the cheapest insurance obtainable.

# INTRODUCTORY.

---

With increased pride in their work, and with grateful thanks to the generous people of the city, R. L. Polk & Co. present the fourth annual volume of the Des Moines City Directory to the public, believing that it will be found to be the best publication of its kind ever put forth here—full, complete and up to date. Directory making, like every other business, is constantly improving; and the publishers of this work have not lost sight of that fact, but have taken advantage of every appliance and facility that abundant capital could bring to bear to place the Des Moines City Directory alongside those published in larger and more pretentious cities. That they have succeeded they believe; and that the business men of the city have in a large measure made this result possible by their generous support.

## POPULATION.

We will be frank and admit fully at once that together with the great majority of our citizens we were more than surprised at the result of the state census so recently taken, of our city. To us the total population as given out by the census bureau was wholly incorrect and unsatisfactory. We undertook the task of making a correct, careful house to house census of the city (for the Commercial Exchange) at the beginning of our canvass, and as a consequence have delayed the issuing of this year's book just thirty days. In consequence our census was taken house by house, block by block, entirely by trained men, and under the daily supervision and instruction of men thoroughly conversant with such work, errors with us to any extent were wholly out of the question.

We think the business men of Des Moines and the entire United States will vouch for our standing and integrity. As business men who had no selfish interests to serve we undertook the work to find out honestly and truthfully how there could be such a wide divergence between our estimates of previous years and the state census of this year.

Well, the result of our efforts has been a perfect surprise to us. From the number of A B C names in our last year's directory we had a perfect right to estimate the city's population just what we did, viz: 82,672. All cities in the United States use the same multiple, and what is more, this company publish the most of them. During the year we have just passed through we have lost some considerable population, as has almost all western cities. Still we have not the slightest cause for alarm. The prospects for Des Moines' future were never brighter than they are to-day. We make no comments upon the state census. We believe that there were no intentional omissions. That there were omissions, and plenty of them, goes without saying. We will just mention one from among the many. Not a student can we find enumerated. Our canvass brings us in 3,017 names. As all cities in the United States enumerate their students, why not Des Moines? The total population of the city is 65,373. These figures are positively correct and reliable.

In conclusion we most sincerely thank our patrons, one and all, for their most generous support, without which a book such as this would be impossible.

Very Respectfully,

R. L. POLK & CO.

## STREET AND AVENUE GUIDE.

### EXPLANATION.

In arranging the "Street and Avenue Guide" for the City of Des Moines the following plan has been adopted (and approved by the City Engineer): All streets on the west side of the Des Moines river have been designated by the name or number alone, abolishing the prefix of west except in the case of numbered streets south of Vine; for example: Walnut, Vine, Grand av., Locust. In the case of the numbered streets, all north of Vine are designated as 1st, 2d, 3d, 4th, etc., and south of Vine, w so 1st, w so 2d, w so 3d, etc. Streets east of the Des Moines river which run through to the west side of and beyond the river are designated as e Vine, e Court av., e Walnut, e Locust, etc.; the numbered streets north of Vine as e 1st, e 2d, e 3d, e 4th, etc., and south of Vine as e so 1st, e so 2d, e so 3d, etc. Streets on either side of the Des Moines river which do not run through from west to east Des Moines are designated by their names without any prefix; for example: Maple, Buchanan, School, University av., etc. If located south of the Coon river, the name of the street is followed by (S D M); if north of the Des Moines river (Highland Park).

The following abbreviations are used: Av for avenue, al for alley, bet for between, boul for boulevard, D M for Des Moines, n for north, rd for road, s for south, w for west, e for east, nw for northwest, sw for southwest, junc for junction, opp for opposite, dr for drive.

OF

## Montpelier, Vermont.

ORGANIZED NOVEMBER, 1848, BY

HON. HENRY CLAY, of Kentucky.

HON. AMOS ABBOTT, of Massachusetts.

HON. ROBERT P. DUNLAP, of Maine.

HON. WILLIAM McCLAY, of New York.

HON. ALEXANDER RAMSEY, of Pennsylvania.

HON. T. P. REDFILD, and

HON. SAMUEL L. PHELPS, of Vermont.

Its officers are among the most conservative men in New England.

Its experience practically covers the whole history of Life Insurance in America, as the oldest well known American Company wrote its first policy in 1843.

Its income and assets show an annual increase.

Its investments are carefully made, regarding security better than excessive rates of interest.

Its list of assets show no depreciation in any single instance.

Protection cannot come from the weak, nor insurance from lack of resource. The National is able, therefore it contracts. It has \$115.00 of assets for each \$100.000 of liability. This means a sure insurance.

# National Life Insurance Co.,

OF

---

## Montpelier, Vermont.

ORGANIZED NOVEMBER, 1848, BY

HON. HENRY CLAY, of Kentucky.

HON. AMOS ABBOTT, of Massachusetts.

HON. ROBERT P. DUNLAP, of Maine.

HON. WILLIAM McCLAY, of New York.

HON. ALEXANDER RAMSEY, of Pennsylvania.

HON. T. P. REDFILD, and

HON. SAMUEL L. PHELPS, of Vermont.

---

Its officers are among the most conservative men in New England.

Its experience practically covers the whole history of Life Insurance in America, as the oldest well known American Company wrote its first policy in 1843.

Its income and assets show an annual increase.

Its investments are carefully made, regarding security better than excessive rates of interest.

Its list of assets show no depreciation in any single instance.

Protection cannot come from the weak, nor insurance from lack of resource. The National is able, therefore it contracts. It has \$115.00 of assets for each \$100.000 of liability. This means a sure insurance.
